## **ACKNOWLEDGEMENT**

I acknowledge the hard work of all the researchers who with their years of effort have come up with very accurate feature extraction algorithms. I am also very thankful to the open source community and in particular CRAN for developing and maintaining such awesome libraries for us students to use free of cost. I would also like to thank my parents for their constant support and blessings. I would like to sincerely thank my course professor Dr. Raghukiran Nadimpalli for his constant guidance and support. His way of teaching us was amazing, I also appreciate the feedback he gave me in all my examinations and reviews because of which I was able to correct my mistakes and produce a good project.
